Who we are // Energy Storage Ireland is a representative association of public and private sector organisations who are interested and active in the development of

Energy storage company Fluence last week revealed a deal with Irish state-owned utility ESB for energy storage projects totalling 105 MW/210 MWh at two ESB

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery

Ireland's ESB has opened a battery energy storage system at its Poolberg site in Dublin. Operational since November, the battery plant is capable of providing 75 MW of energy for two hours

The Dublin Energy Hub, housing the largest battery, serves as a testbed for the future of clean energy in Ireland. It is envisioned as a hub for

The Energy Storage Ireland Annual Conference returns to Croke Park in Dublin, bringing together leaders from across the energy sector to explore the critical role of storage in Ireland's clean energy

Store your solar energy for when you need it. Our battery storage systems help reduce reliance on the grid, cut bills and protect against outages. Based in Dublin with SEAI support.

The ATON Storage photovoltaic storage systems make your home more self-sufficient, allowing self-consumption up to 85% on an annual average, and are

Irish state-owned utility ESB on Wednesday opened a 75-MW/150-MWh battery energy storage plant, currently Ireland's largest, at its Poolbeg site

Wednesday, 7th February 2024 Dublin, Ireland - ESB has today opened a major battery plant at its Poolbeg

Dublin Power Storage

site in Dublin which will add 75MW (150MWh) of fast-acting energy storage to help provide

Dublin's battery energy storage projects represent a critical step toward energy independence and carbon neutrality. By combining cutting-edge technology with strategic infrastructure, the city is

Operational since November, the battery plant is capable of providing 75 MW of energy for two hours to Ireland's electricity system. It features high-capacity batteries that store excess...

Microsoft's new data center in Dublin, Ireland, will be able to supply the power grid with backup electricity from its lithium-ion batteries. Microsoft thinks

The ESB Poolbeg battery plant will add around 75 MW of fast-acting energy storage to make the grid in Ireland more stable.

The facility is capable of providing a rapid delivery of electricity into the power grid in order to balance fluctuations resulting from the growing proportion of electricity
