On 2 March 2012, Oerlikon signed a contract of sale with Tokyo Electron for its solar division, Oerlikon Solar, which employed 675 people at eight locations

(ADPnews) - Feb 22, 2011 - Swiss industrial engineering firm OC Oerlikon (VTX:OERL) said today its subsidiary Oerlikon Solar received an order from Chinese photoelectric glass maker Dong Xu Ltd for

The world's largest producers of power generation equipment build on Oerlikon advanced materials, functional coatings or process technologies to improve performance and cut the environmental

Baoding Tianwei Solarfilms Co. Ltd. and Oerlikon Solar announced the completion of what they describe as one of the mainland China's largest thin film solar panel factories. This first phase of

Oerlikon Solar introduces "ThinFab" production line with record costs and achieves highest cell efficiency in the lab.

Oerlikon Solar is a leading provider of thin film solar module production lines and technologies. They presented on their business overview including key metrics

The supplier of end-to-end manufacturing lines for the mass production of thin-film silicon solar modules, Oerlikon Solar, has launched the new "ThinFab" production line, which it claims will

Oerlikon Solar has developed new equipment that promises 50% more manufacturing capacity and 16% more efficient power output from each new solar panel.

Tokyo Electron (TEL) has acquired the solar business of Oerlikon. Following Oerlikon's announcement in March that it will divest its solar business, TEL has now acquired 100 per cent of

Oerlikon Solar is making solar power economically affordable with its end-to-end production lines for thin

Oerlikon Solar Power

Oerlikon has announced that it has closed the sale of its solar business to Tokyo Electron Ltd. (TEL). TEL acquires 100% of Oerlikon Solar shares with cash proceeds for Oerlikon amounting

In those conditions the PV Module must deliver electric energy with minimal performance losses! Key to model the lifetime of a PV Module (once the kind of stresses that the device will suffer are well

Oerlikon Solar at a glance Oerlikon Solar strives to make solar power economically viable.

Oerlikon (SIX: OERL) is a global leader in surface technologies and advanced materials. With a unique portfolio spanning surface engineering, high

(SeeNews) - Nov 27, 2012 - Swiss industrial firm OC Oerlikon (VTX:OERL) said today it had finalised the sale of its solar unit to Japanese electronics maker Tokyo Electron Ltd (TYO:8035).
